

LANDFILL GAS TECHNOLOGY

Process

- High temperature flare plants (HTF)
- Gas booster stations
- Gas collection stations for landfill gas
- Combined heat and power plants (CHP) for landfill gas

Data

- Containerized plants
- Skid-plants
- 50 – 2.500 m³/h
- Variable usage even at decreasing gas volumes and gas quality

Services of TDL Energie

- ✓ Installation and commissioning
- ✓ Servicing
- ✓ Maintenance and repair
- ✓ Gas optimization
- ✓ Gas analysis
- ✓ Rental plants

**Benefits of
TDL Energie:**
years of experience
worldwide service
